

Waverley College is an independent Catholic boys' school (Years 5 - 12) in the tradition of Edmund Rice. It offers a diverse range of academic, sporting, cultural and co-curricular activities that are aimed at providing students with a well rounded, holistic education. The College has a fine academic tradition with outstanding HSC results over the years.

College Headmaster Br Leary has embraced the responsibility placed on Waverley to deliver a well rounded education. "We are committed to creating better teaching and learning facilities for our students and teachers, now and into the future."

Waverley College seeks to provide educational and practical experiences in the classroom and beyond that enable each student to find his personal strengths and abilities.

"Whether in English, Design & Technology, Drama or Music performance, the Cadet Unit, the Social Justice program, the religious aspects of College life or on the sports field, Waverley College aims to produce confident young men who can take their place in the home and in society at large," Br Leary said.

As well as the academic program, during Term Two alone the boys have been involved in an extensive co-curricular program. At the moment, students are involved in debating, rugby, soccer, The Musical 'Shout', tennis, volleyball, cadets & the Social Justice program.

Waverley's five-year strategic plan, implemented by the College Executive, has committed more than \$3.5m to the upgrade of the teaching and learning facilities on two campuses. Stage 1 of the refurbishment of the Senior Campus is almost complete and together with the monies available from the Federal Government for Primary Schools the two campuses will certainly provide excellent facilities for over 1300 students.

Additions during the refurbishment phase have included Smart board technology and data streaming for each classroom, new desks, chairs, carpet, air-conditioning and fans – all meant to improve the learning environment for the students. These improvements of course, assist teachers in challenging students to achieve at the highest levels.
